Re: Apimondia 2025 in Scandinavia

The members of Nordic Baltic Bee Council, fully endorse the Norwegian Beekeepers Association, the Swedish Beekeepers Association and the Danish Beekeepers Association in the bid to host the Apimondia 2025 in Scandinavia.

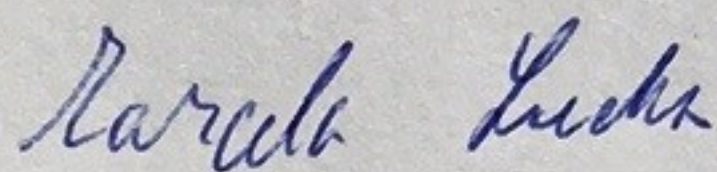

The Nordic Baltic Bee Council consists of Eesti Mesinike Liit (Estonian Beekeepers Association), Latvijas Biokopības Bedriba (Latvian Beekeepers Association), Lietuvos bitininkų sąjunga (The Lithuanian Union of Beekeepers), Norges Birøkterlag (Norwegian Beekeepers Association), Sveriges Biodlares Riksförbund (Swedish Beekeepers Association), Suomen Mehiläishoitajain Liitto (Finnish Beekeepers Association) and Danmarks Biavlterforening (Danish Beekeepers Association). The organisations have in total more than 35.000 members and to have a conference close to home will surely interest great many of them.

We believe that Copenhagen and the Scandinavian countries will provide an interesting and exciting venue for beekeepers, and the members of Nordic Baltic Bee Council will collaborate to ensure a successful congress.

Agreed on the meeting of Nordic Baltic Bee Council

Copenhagen Thursday 7th of April 2022

On behalf of the Nordic Baltic Bee Council

Marcela Sucha

President
